

5914 Silky Clean

Products/Procedures

Fabritec 5914 SILKY CLEAN is a premium wet side detergent for use on fragiles and hand care washables; of light to medium soil levels. SILKY CLEAN contains a synergistic blend of gentle detergents for optimum soil removal and incorporates a color transfer deterrent to protect against fugitive dye migration. SILKY CLEAN should be used in cold or warm water in a washing machine or soak bath. It does not require rinsing, thus saving time and reducing mechanical action. Items dry wrinkle free and with a noticeable softness of hand. SILKY CLEAN contains no phosphates or solvents and is completely biodegradable.

USE INSTRUCTION:

Hand Washing: Add 1/2-1 oz. SILKY CLEAN per gallon of cold or warm water. Soak fabric and squeeze periodically. Squeeze solution out or extract lightly - do not wring. Dry according to care label instructions.

Home Washer: Add 1 oz. SILKY CLEAN at low level, 1 1/2 oz. at medium level. Use cold or warm setting. Wash short cycle on fragile setting. Dry according to care label instructions.

Commercial Washer: Add 1 to 2 oz. SILKY CLEAN per 10 lbs. of fabric. Use cold or warm water. Wash short cycle, rinse if desired. Extract lightly. Dry according to care label instructions.

Follow Garment Care Label Instructions.
