

Fabritec 5925 Cotton Clean

Products/Procedures

Fabritec 5925 COTTON CLEAN is a modern, all purpose wet-side detergent especially formulated to work on sport and casual clothing. It is ideally suited to process the corporate casual garments that you choose to wetclean. Cotton Clean can be used at any water temperature and is compatible with other laundry additives. Its moderate pH and color transfer inhibitor ensure bright whites and colors. Cotton Clean contains no solvents, less than 1 % phosphates and is completely biodegradable.

USE INSTRUCTION:

Home Washer: Add 1-2 oz. Cotton Clean at low level, 2-4 oz. at medium to high levels. Use cold, warm or hot water depending on load type and soiling.

Commercial Washer to 50 lbs.: Add 2-4 oz., depending on soiling. Use cold, warm or hot water depending on load and soiling.

Cotton Clean is compatible with common commercial laundry additives such as alkalis, penetrating agents and bleaches.

Follow Garment Care Label Instructions.
