

**Titanium PLUS Multi-Enzyme
Laundry & Wet Cleaning Detergent**

It's Not Just For Shirts Anymore!

Titanium PLUS is a multi-enzyme, low pH product containing over 16 active ingredients. "Copy Cat" products, even those claiming to contain enzymes, usually contain no more than six or seven ingredients and are loaded with useless fillers. **Titanium PLUS** low pH, low temperature formulation greatly reduces energy costs and is gentle on fabrics. Excellent results, even in adverse water conditions.

- Low sudsing formulation means better mechanical action and higher soil removal.
- Removes a broad range of stains that other products simply can't touch.
- Leaves garments soft and smooth.
- Gentle on skin; leaves no harsh residues on fabrics.
- Low pH means dramatic reduction in claims due to pinhole damage.
- High customer satisfaction ratings drive dry cleaning sales.

Outstanding results when used on:

- Wedding Gowns
- Drapes & Curtains
- Bedspreads, Duvets, Blankets (including electric), Pillows and Pillow Cases
- Area Rugs
- All Casual Wear including Levis, Dockers, and Polo Shirts Camping Gear and Garments such as:
Sleeping Bags, Tents, Ground Covers, Tarps
Parkas, Rain Gear, Cloth Hats and Gloves
- Ski & Hunting Wear including Gore Tex items
- High-visibility and reflective, safety garments.

Use Titanium PLUS to:

- Restore dull and dingy garments.
- Safely bleach multi-colored garments to their original new and bright condition.
- Safely remove fugitive dye stains from white or colored items.
- Safely remove ink stains from white and colored garments.

Titanium EXtra 5931 also applies and is specially formulated for areas with hard water or plants without a water softener system.
